"The No Slogan Company"

X-keys® XKE-64 Replay Controller

The X-keys XKE-64 Replay provides a cost-effective instant replay control solution for live streaming or recording sports. The vMix template provides instant setup of all keys and indicators to control all four channels of instant replay in vMix Pro as well as instantly creating clips for multiple highlight reels.

- Instant setup in vMix with built-in template in version 22.0.0.66 and higher

- Industry standard jog & shuttle control for setting in and out points

- Smooth action T-bar for live playback speed control

- Heavy-duty extruded aluminum case with powder coated finish

- Wired USB connection with three-meter cord

- Easily add additional keys or change key location to suit requirements
