- Perform under no software installation

APPLICATIONS

- Server Collocation
- Digital Signage
- Education
- Airports
- Dealer Rooms
- Control Rooms
- Audio/Visual Presentations
- Shopping Centers
- Hotels/Resorts

OVERVIEW

KVM Switch allows the control of two computers with 4K single HDMI video output via a single console set of USB keyboard/mouse/hub, microphone, speaker and display. KVM Switch has built-in USB 2.0 compliant and 3.5mm mini stereo ports allow sharing of the USB keyboard/mouse/hub, speaker, and microphone among the connected computers. The switching between the connected computers is executed by using the front panel or keyboard hotkey commands. Product set-up is quick and simple with no software to install, so you're ready to go right out of the box.
